## *Coastal Memories*

Before class- Please straight piece the sky to the water section. Sky is 33 x 7. Water is 33 x 15.5

To create a greater sense of distance across your body of water - start with light color water fabric by the horizon line and work towards darker water fabric in the foreground.

The water section can be made of 2-4 fabrics (lighter to darker), that are strip pieced or appliquéd together with slight curves.

## *Winter scene*

Collect the dark sky and water fabric. They should be in the same color of blue family. Do not mix teal blues with purples blues. Water should reflect the same sky color.

You may choose to fuse the smaller dark silhouetted tree shapes and cabin windows. Bring 1 sheet of fusible Lite Steam a Seam 2 with you.
